WHY GOOD WOOD

Good Wood's legacy and leadership does not only come as the first company in the Middle East and North Africa in the field of manufacturing Blockboards , we derive our legacy and leadership from our history that lasts for more than a quarter of a century, and with the certification of specialized international organizations that adopt quality certificates in accordance with strict conditions and controls, It was qualified to obtain the certificates of ISO45001, ISO9001, also a certificate of " proudly made in Egypt" and finally the certificate of FSC In addition to the tests of the Egyptian Organization For Standardization & Quality, which confirmed the conformity of the products to the international standards, which confirms the international experiences reached by the company throughout its long history.

Where Good Wood company was able to obtain these certificates and international credits efficiently and worthily, this conformity of world standards cannot come by chance, there is an integrated team of experts and competent workers, who continue the night with the day to work with planning and mastery to upgrade day by day in the Egyptian industry and put it on the map of the major industrialized countries.

Good Wood contributes to the increase of GDP through the increase of Egyptian exports abroad, where the company expanded its foreign branches, in 1998 the company opened a branch in Lebanon, and in 2006 came the opening of its second branch in Casablanca, Morocco, Good Wood seeks to increase its external branches in order to increase The Egyptian GDP.
